In G.O. No. 11322 dt 6.3.19, it has been clearly explained to the President, how, in view of the several points stated therein, the G.O. cannot be modified as proposed by the Board. The President

urges, more or less, the same grounds first urged by him

In para 3 of his letter the Resd. states that any proposal about shifting the place of business of tanneries to any other locality approved by the Dt. Bd. will be strongly resented to. The Revd. Sees letter conveys such idea of shifting the business. All that was said was that if applns for opening new tanneries should increase, the Dt Bd may refuse to grant licenses to open them except in places specially set apart and thus limit the area within which tanneries may be opened

Submitted for orders.

28/3/19

No modification of the orders already passed appears to be called for. For the present the Dt Bd may acquire the land required for the existing tanneries. Should the tanneries cease to work then the lands may be resold & proceeds credited to Govt funds. This course is necessary since acquisition for private persons is not authorised under the L.A. Regn.

Sir,

With reference to your letter No.11322/L.B.53-18-3 dated 6th March 1919. regarding the acquisition of lands for the treatment of the waste from tanneries, I have the honor to state that what the District Board intended was that they should not be required to acquire the lands out of their own funds, but the tanners should provide the necessary lands or pay the cost of acquisition, should acquisition be necessary. Since the tanners have already been in possession of lands on which their factories have been erected, it is quite easy for them to procure additional lands, which they will be at liberty to dispose of in any manner they please. should they close their business. The observation of Government that to acquire lands out of the money furnished by the tannery owners would be unfair to them if the tannery ceases to work, would apply equally to the District Board.

2. The observation of Government about the raising of the license fee is also not practicable, as a very high fee will have to be levied if it should cover the cost of acquisition of lands which is sure to cost a large sum of money. Even the small fee of Rs.50/- proposed by the Board was reduced by Government to Rs.25/-.

3. Lastly, the observation that it is competent for the Board to prescribe the area in which the business may be carried on is not feasible as such a restriction would effect the existing trade.

The tannery merchants have already set afloat an unreasonable
